AUDIT EXECUTIVE SUMMARY:

The operation was running the One line during the inspection. The operation receives apples from their own farm and a few small farms all certified with a GAP program. Apples are ran from August through roughly June, it varies based quantity of incoming product. There were roughly 85 employees working at the time of the audit. The operation is surrounded by their own farms. The facility size is mostly storage for raw product. Apples are brought to the facility in bins. The apples are then placed in storage and ran at the appropriate time. The apples are dumped into a dump tank, dried, and ran through the line. Calcium hypochlorite is utilized in the water. The operation uses foot spray cleaner when crossing from the wet to the dry side of the line.
